

13 Numbers

Seize the Market with a 13 Number

Look 'BIG' and Make Your Business Stand Out

Being only 6 digits long, 13 numbers are potentially the easiest inbound numbers to remember. That's why they're popular with Australia's leading organisations and preferred by marketers. They're an excellent investment for businesses that want to project a large national presence.

One National Number

Become a truly national organisation and project a big business image by offering an easy to remember single number for all callers across Australia.

Online Management Portal

Our number management portal is one of the most comprehensive solutions on the market. Manage your number, access live call analytics and reports with ease.

Enterprise Grade Features

13 numbers come with a complete set of enterprise grade features and functions, all designed to help you manage your calls and create an outstanding caller experience.

Advanced Call Tracking and Management Portal

Capture valuable insights into which marketing sources are generating the most calls and conversations, how often your calls are being answered or missed by your team, where in the world are your customers calling from (accurate down to a suburb), and what days or times you receive the most calls.

Game Changing Call Flow Designer

Use our call flow designer to easily direct calls to a mobile phone, a landline or a SIP address. Play audio to introduce your brand or advertise your latest products or services and create IVR menus to direct your calls to the right sales or support team. Route calls by time or day to suit your business hours, or by your customer's location to make sure their call gets to the right representative.

Become a Truly National Organisation with a 13 Number

13 numbers come in many variations including [Free Pool Numbers](#), [Phone Names](#) and [Phone Words](#), making them a lot more than just a phone number. Together with its range of enterprise-grade features and functions, a 13 number will take your business to the next level.

One Number for the Life of the Business

Being a nation-wide number and not restricted to a telephone exchange, a 13 number will accommodate any type of business growth.

Gain a National Footprint Across Australia

A 13 number will dramatically improve your business presence beyond your local area. Your business will appeal to a larger audience and attract new customers.

Get Better Results from Your Marketing

A 13 number will open up new markets and the numbers are proven to increase marketing response rates and generate more inbound calls.

Look 'BIG' with a 13 Number

13 numbers are generally associated with large, national companies. If your business operates in that market, it pays to project a similar image.

Always Keep the Same Number

Ensure your business never has to change its number. 13 numbers are completely portable and not restricted to a local telephone exchange.

Be 5x More Memorable

Only inbound numbers come with the option of choosing an easy to remember smart number. Phone Names and Phone Words are an excellent way to be remembered.
